01 PROFILE

Cloud and DevOps Engineer specialising in **Kubernetes**, **AWS** and **Infrastructure as Code**, currently at GFT Technologies delivering a GenAI conversational service on AWS for a tier-1 banking client. Deep background in networking and Linux systems (CCNA, RHEL/KVM) applied to cloud-native environments. Kubestronaut — holder of all five CNCF Kubernetes certifications. Technical instructor since 2017, delivering DevOps, cloud and CNCF certification programmes (CKA, CKAD, CKS) in Spanish for KeepCoding, Immune Institute and CAS Training.

02 CORE STACK

Cloud	AWS (EKS, Lambda, App Runner, API Gateway, DynamoDB, Kinesis, S3, RDS, ECS, IAM, CloudTrail, PrivateLink), GCP
Containers	Kubernetes, Docker, Helm
IaC & CI/CD	Terraform, CloudFormation, Ansible, GitHub Actions, Jenkins, GitLab CI
GenAI / LLM	LLM API integration (OpenAI), serverless application infrastructure on AWS, event streaming for prompt/response logging
Languages	Python, Bash, Go
Virtualisation	KVM/libvirt, RHEL, SUSE, Debian/Ubuntu
Networking	VPC design, routing & switching, load balancing (HAProxy, ALB), VPN/DMZ
Lab & teaching	Kubernetes networking internals (CNI, Cilium/Calico, BGP peering, MetalLB), Istio service mesh, Kyverno policy enforcement, ArgoCD/GitOps

03 EXPERIENCE

GFT Technologies

2026 – Present

DevOps Engineer · Client: BBVA

- DevOps for a production LLM-based conversational service on AWS: App Runner, Lambda, API Gateway, DynamoDB, Kinesis and S3, with OpenAI as the model provider and FastAPI + httpx as the application layer.
- Delivery automation with GitHub Actions and CloudFormation.

Paradigma Digital

2017 – 2026

Cloud Engineer

- Kubernetes operations across AWS EKS and on-premise Linux clusters, using Terraform as the IaC tool.
- Delivered infrastructure on AWS and GCP using Terraform, Ansible and CloudFormation for multiple enterprise clients.
- Kubernetes, Helm and Docker administration; managed MySQL and PostgreSQL estates on Amazon RDS and Cloud SQL.

KeepCoding · Immune Institute · CAS Training · AEPI

2017 – Present

Technical Instructor — DevOps & Cloud

- Deliver intensive DevOps and cloud bootcamps in Spanish covering AWS, Kubernetes, CI/CD, IaC and cloud security.
- Deliver CNCF certification preparation courses at CAS Training: CKA, CKAD and CKS.
- Author and maintain the hands-on lab curriculum: a 13-module AWS certification lab library (security, networking, serverless, containers), plus multi-level programmes on KVM/libvirt private cloud and Python.
- Build and maintain lab environments covering Kubernetes networking internals (CNI, Cilium/Calico, BGP peering, MetalLB), Istio service mesh, Kyverno policy enforcement and GitOps with ArgoCD.

- Designed and delivered Python, SQL, automated testing and Cloud/DevOps programmes at AEPI (2017–2023), including curriculum design and course materials.
- Mentor students through live labs; consistently teach cohorts of professionals transitioning into cloud-native roles.

Itera Process

2016 – 2017

Senior Systems Administrator

- AWS instance provisioning and lifecycle administration; RDS database administration and support.
- Managed mixed Windows Server 2008/2012 and Linux (RHEL, CentOS, Debian, Ubuntu) estates.
- Deployed AWS Storage Gateway; administered IAM, Security Groups and AWS WorkSpaces.

BEEVA

Jun 2015 – Sep 2016

Senior Systems Administrator

- Administered RHEL/KVM virtualisation at scale (200+ VMs).
- Automation with SaltStack and Ansible; built centralised YUM repositories and custom Bash/Python maintenance tooling.

BQ

Jan 2015 – Jun 2015

Senior Systems Administrator

- Linux systems administration on AWS and GCP; MySQL/PostgreSQL and Atlassian suite administration.
- Automated provisioning with Bash and PHP scripting and Jenkins pipelines.

Hispaweb

Sep 2014 – Dec 2014

Systems Integrator

- Installed and configured HP/Dell servers (RAID, iLO), KVM and Hyper-V virtualisation, IIS and Terminal Services.
- Performance tuning across Apache, MySQL, DNS, IPTables, HAProxy, Varnish and SVN.

Earlier career

1996 – 2014

Ten years as a **technical instructor at CENTEC** (Linux, Windows Server, Cisco networking, VPN/SSH/SSL security, PHP and JavaScript), preceded by systems integration and infrastructure roles at **Corvus, Optime Consulting, Amplexus Corporation, HardSoft** and **Lantech** — Novell/Windows server environments, Cisco routing, structured cabling, LAN/WAN design, VoIP and DMZ implementation. Full detail available on request.
